

## Aircraft Performance and Limitations

In this presentation we will talk a little bit about Loss of Control Accidents and recommendations from a working group that studies loss of control. We will talk about aircraft performance parameters and calculations. We will also offer suggestions that will help you with aircraft performance prediction. Aircraft limitations will also be discussed. Finally, we will give you some tips and tricks that will help you to avoid performance-based accidents in any aircraft. There will be plenty of time for questions at the end.

**Directions:** Seminar will be held in the lobby of the Reid-Hillview Airport Terminal building. From Highway 680, exit onto Capital Expressway. Travel Southeast on Capital Expressway. At Cunningham Ave. turn Right. Reid-Hillview Terminal building is straight ahead then slightly left.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
